This is to advise you that the Bay Area Air Quality Management District has decided to propose a minor revision to the Major Facility Review Permit for C & H Sugar Company, Inc. (Facility Number B1911).

MARIN COUNTY
Harold C. Brown, Jr.

The purpose of the minor modification is to change:

NAPA COUNTY
Brad Wagenknecht

1. Source 228, Drivert Production as follows:

Add one Bauermeister Pulverizer

Remove two Schultz-O'Neil Pulverizers

SAN FRANCISCO COUNTY
Chris Daly
Tony Hall
Leland Yee

Remove one Centri-Sonic Classifier

Remove baghouses associated with Centri-Sonic Classifier and one Schultz-O'Neil Pulverizer

SAN MATEO COUNTY
Jerry Hill
Marland Townsend
(Secretary)

Abate new pulverizer with existing baghouse for Source 263, Drivert Packer

Along with these hardware changes, permit condition 15886 for Source 228 has been modified to include PM10 emission limits and source test requirements.

SANTA CLARA COUNTY

Dena Mossar

2. 263, Drivert Packer as follows:

Abate Drivert Packer with existing baghouse for one of the Schultz-O'Neil Pulverizers

SOLANO COUNTY

3. Two typographical errors in the Title V permit as follows:

Blower was incorrectly spelled Blejoer in describing the components of Source 228 in Table II-A.

SONOMA COUNTY
Tim Smith
Pamela Torliatt

Although an annual throughput limit of 6,000 tons per year was listed in Cond. 15586, Table VII – O incorrectly listed the limit as 5,000 tons per year.

All changes are clearly shown in strikeout/underline format.

The District will issue the permit after the EPA 45-day review period is over and after addressing any EPA comments.
